SoftRAID 5

Simply the most advanced software RAID for Mac.

SoftRAID offers performance and flexibility far beyond hardware RAID, delivering state-of-the-art drive certification, always-on health monitoring, detailed email notification, and fully customizable RAID modes. SoftRAID is the most advanced software RAID engine for Mac.

- SoftRAID delivers a complete RAID control and feature set
- Always-on disk health monitoring with email notification
- System wide predictive disk-failure analysis
- Comprehensive drive certification
- Fast RAID rebuild times
- RAID 0, 1, 4, 5, and 1+0 support
- Support for multiple RAID volumes across the same disks

Try it free today at www.softraid.com

SoftRAID Lite – just \$49.00

Want the incredibly robust disk-health monitoring and drive certification tools of SoftRAID 5, but only need support for RAID 0 & 1? Meet SoftRAID Lite, your essential RAID utility for Mac OS X v10.6.8 and later. With SoftRAID Lite, you can:

- Create and manage RAID 0 volumes
- Create and manage RAID 1 volumes nearly twice as fast as Apple RAID
- Receive desktop notifications of drive health issues
- System-wide predictive disk-failure analysis
- Convert old Apple RAID volumes to SoftRAID volumes

GIVE YOUR MAC THE SSD SPEED ADVANTAGE

OWC Mercury Solid State Drives

High-performance SSDs for Mac and PC

Most MacBook, MacBook Pro, iMac, Mac mini, and Mac Pro models are easy to upgrade to the benefits of an OWC SSD. Our online SSD guide makes it easy to see which SSD is right for your exact Mac. Upgrade to an OWC SSD, and your Mac will boot in seconds, not minutes; apps launch almost instantly, and overall performance improves. OWC Electra 3G SSDs are built to tap the maximum performance from 2010 and earlier Macs while OWC 6G SSDs enable peak performance from 2011 and later models.

- Made for Mac first
- 7-stage lab tested to ensure maximum compatibility and reliability
- Award-winning, 24/7 expert support
- Easy DIY installation with our step-by-step installation videos
- Up to a 5-year OWC limited warranty

SAY GOODBYE TO THE BEACH BALL

OWC SSDs are up to 100x faster than your Mac's factory hard drive, delivering an unbelievable speed boost to your computer. With intelligent data-management technologies, advanced error correction for superior data integrity, and 7% over-provisioning so your drive won't slow down over time, a Mercury SSD is reliable storage that's engineered to seamlessly work with your Mac. If you're making new creative content, editing media, or simply want a faster computer for daily use, OWC is here with the best SSD for nearly every Mac, including yours.

"...the best performing SSD on the market for the 2012 MBA."
Les Tokar, The SSD Review

"The 480GB OWC Mercury Aura Pro simply thrashes both stock SSDs Apple offers with the MacBook Air."
Kevin O'Brien, Storage Review.com

"I find the [Envoy Pro] absolutely beautiful and on par with the best that has come out of Jony Ive's (SVP of Industrial Design at Apple) labs."
Jim Tanous, The Mac Observer

"Whether you want to increase your speed or capacity or both, the OWC Aura Pro is an upgrade that the Retina MacBook Pro owner should keep in mind."
Rob-Art Morgan, Bare Feats

OWC Aura SSD

The first SSD upgrade for the 2013 Mac Pro

Upgrade your 2013 Mac Pro's internal SSD with up to sixteen times the factory capacity. Turn your Mac Pro's original SSD into a blazing-fast, portable USB 3.0 drive with the included Envoy Pro enclosure. Available up to 4TB, the Aura SSD for Mac Pro continues OWC's dedication to giving you more from your Mac.

- First internal SSD upgrade for 2013 Mac Pro
- Up to 4TB for up to 16x the internal capacity of the factory drive
- Free how-to videos and all tools included
- Re-purpose the factory SSD as a blazing fast portable drive
- 3-year OWC SSD limited warranty

Aura SSD + Envoy Pro			
Item Number	Capacity	Warranty	MSRP
OWCSSDA13MP1.0K	1.0TB	3 year	\$895.00
OWCSSDA13MP2.0K	2.0TB	3 year	\$1,475.00
OWCSSDA13MP4.0K	4.0TB	3 year	\$2,299.00

Take the Factory SSD With You

The OWC Aura SSD for Mac Pro kit includes the award-winning Envoy Pro SSD enclosure, allowing you to easily repurpose the factory-installed Mac Pro SSD as an elegant aluminum-body USB 3.0 external drive for incredible portable performance.

Freedom To Do More

Regardless of which factory SSD you're replacing, an Aura SSD upgrade gives you more space to work, create and play. Store large photo, music and video libraries, and improve efficiency in creative workflows. This capacity boost removes the factory capacity limit, giving you the freedom to do more on your Mac Pro.

PCIe POWERHOUSE SSDS

OWC Mercury Accelsior E2

Add a 2.5" hard drive or SSD in place of your Apple SuperDrive. Includes all tools and mounting components required to double your drives.

now \$47.99 | Bundle specials with drive included from \$72.50

OWC SSD Bay Install Kit for iMac 2010–2011 Models

Install an OWC SSD as your boot and application drive for an unbelievable performance boost in your 2010 iMac (27") or 2011 iMac (21.5" and 27"). Continue to use the factory installed 3.5" drive for archiving and backup. Includes all installation tools, mounting components, cables, cleaning cloth, and installation guide required to double your drives.

from \$39.99

SuperSlim External for Apple SuperDrive

With the SuperSlim enclosure, reuse the Apple SuperDrive as a portable, USB bus-powered, external DVD/CD drive.

\$34.99 | \$15.00
OWCVLSS9TOPTU2 | with Data Doubler purchase

"The best of both worlds... I was able to install the bracket and the SSD in about 15 minutes."
Marshall Clow, MacNN

"Installation process was very simple... instructions were extremely easy... included everything I needed, even tools."
J. Glenn Kunzler, MacTrast

"Other World Computing's DIY Solid State Drive Upgrade kits provide a better way to upgrade to SSD technology... You gotta get one!"
Brandon Hum, circuitREMIX

"...very handy, useful and high-quality mounting adapter"
Peter Kapas, Bjorn3D.com

"I love this setup... has everything I need... It's beautiful."
Weldon Dodd, Gigaom

"...a rather clever bracket ...the folks at OWC take product quality very seriously"
Stu Helm, International Mac Podcast

"OWC's Data Doubler bundler and RAM upgrades are a great way to get more life out of your older Mac..."
Claudia Paredes, MacDirectory

"...I really love the Data Doubler... must have for anyone who likes to store a lot of content."
Craighton Miller, LogicLounge

"...a simple, quick and functional upgrade ... you won't regret..."
Anthony Tortoriello, Photography Talk

"Mutate your Mac into the next big thing ... gives you all you need to add replace optical drive ..."
Jo Hendriks, Knightwise.com

"...a genius adapter... What's fantastic about this upgrade is having two separate hard drives inside a laptop."
Edmond Terakopian, Photo This & That

MAX OUT YOUR LAPTOP!

OWC Memory for Apple Laptops

2006–2012 models, up to 16GB **from \$17.99**

An OWC memory upgrade is by far the best way to give your Mac a total system performance boost. Max memory means your Mac runs cooler, quieter, and as fast as possible. Even better, OWC memory costs up to 70% less than factory and meets or exceeds all factory requirements. Covered by our Lifetime Advanced Replacement Warranty, it's an easy DIY upgrade.

"I love learning two things here, that the type of NAND Flash matters a lot depending on what kind of files you're trying to read and write. If I'm using an SSD for backup of my gazillion separate files, asynchronous flash would be just fine, but ... running real time while editing video in Final Cut Pro X ... make sure ... SSD is synchronous Flash."
 Podfeet

"... when it comes to storage for Macs, things don't get much better than OWC ..."
 Adrian Kingsley-Hughes, ZD Net

"This stands out as a whole different beast because it's in the form factor of a thumb drive."
 Podfeet

"...a fantastic choice for users that require ultra-portability and performance coupled with a superb design when looking for expanded capacity on the go."
 Josh Shaman, Storage Review

"The Envoy Pro EX is not only fast and remarkably small, but it also has a simplicity and ultra sleek appearance that only added to my amazement ... Welcome to the future of portable storage."
 Dan East, Layers Magazine

"... when it comes to storage for Macs, things don't get much better than OWC ..."
 Adrian Kingsley-Hughes, ZD Net

"... the speed potential of this drive is massive... perfect for the speed demon..."
 Hassan Al-Zahrani, Examiner.com

“That drive is great...
It’s my favorite enclosure...
It looks AWESOME!!”
—Leo LaPorte, Andy Ihnatko, MacBreak

TIME-TESTED RELIABILITY & PERFORMANCE

“A reliable and cost-effective option for anyone seeking high performance storage with the reliability of RAID 5 or RAID 10. Solidly built, it’s a bargain in the land of RAID.”

— Mac Performance Guide

“More storage than you could possibly need...A workhorse device.”
Zack Stern, MacLife

“For the performance, capacity, and connectivity, the Mercury Elite Pro Qx2 is the one to beat.”
Daniel M. East, Layers Magazine

“Keeps your precious data completely safe and accessible to you at ridiculously fast speeds.”
Eric Yang, Gear Patrol

“OWC’s latest four-drive unit doubles maximum data transfer to a smokin’ 300MB/s.”
Jonathan Barkey, American Photo Magazine

“Very well made, very sturdy, and built to last...I have no hesitations in recommending the...Qx2”
Matt Beardsley, Photo Arts Monthly

“A pretty cool solution if you have a lot of storage...a reliable system for all your data.”
Mike Flaminio, Insanely Great Mac

“Sturdy and well-designed enclosure ... a large storage array that’s simple to use ... a solid option.”
Kevin O’Brien, Storage Review.com

“...good price, excellent performance, and a wide range of storage options...”
Nick Mertes, Icrontic

“The QX2 ... Operated flawlessly in all modes, with excellent performance.”
Lloyd Chambers, diglloyd

“Very impressed ... It stood up to everything I threw at it.”
Jim Dalrymple, The Loop

“This thing screams quality and speed!”
Sven Raferty, SvenOnTech

HEAVY-DUTY STORAGE FOR HIGH DEMAND PROFESSIONAL ENVIRONMENTS

OWC Mercury Rack Pro

Versatile professional 4-Bay 1U rackmount hardware RAID

USB 3.0 | eSATA | FireWire | Mac & PC

Mercury Rack Pro is specifically designed to integrate with a professional rack-based environment and meet the critical performance demands of pro video, audio, and graphics production. USB 3.0, FireWire and eSATA interfaces mean Mercury Rack Pro is compatible with your existing equipment and it's preconfigured in RAID 5 mode for maximum speed and data redundancy. It's also user-selectable between RAID 0, 1, 3, 10, and independent modes to perfectly match your workflow.

- Multi-interface – USB 3.0, FireWire 800, FireWire 400, eSATA with Port-Multiplier support
- User-configurable hardware RAID: span, 0, 1, 3, 5, 10
- Trayless drive bays for easy drive management
- Whisper-quiet operation

Upgrade Your iMac Hard Drive Today

2009–Current iMac models

OWC has the definitive toolkit to help upgrade the hard drive in your iMac. Period. No hacks, no special software. These kits are complete with industrial-grade screen-removal suction cups, screw drivers for each piece of hardware, and most importantly — a digital thermal sensor module that simply connects in line with your new drive, providing full, native compatibility with the iMac SMC temperature monitoring and fan control. It's everything you need to install a fast, modern 3.5" SATA drive in your iMac that's fully compatible with Apple Diagnostic Testing applications.

OWC's inline thermal sensor provides the data iMac's SMC needs for proper fan cooling control without special software or hacks.

Don't need the full toolkit?

OWC ThunderBay 4 & ThunderBay 4 mini

Professional grade 4-bay drive
Thunderbolt 2 | RAID 5 Edition | Mac

ThunderBay 4 is the revolutionary four-bay production drive, powered by the advanced SoftRAID engine. Right out of the box, it's plug and play ready in RAID 5 — built for pure sustained performance, enormous capacity, and ultimate reliability. Create multiple arrays across the same four drives, or create a single array across multiple daisy-chained enclosures for an incredible performance boost. ThunderBay 4 delivers the power to meet the demands of the most complex workflows, including yours.

- Pre-configured in RAID 5, user-configurable in RAID 0, 1, 4, 5 & 1+0
- Always-on disk health monitoring with predictive failure analysis
- Rigorously pre-tested with multi-hour burn-in
- Ultra-quiet, heat-dissipating aluminum chassis with whisper-quiet cooling fan
- 3-year OWC limited warranty

EDIT, EXPERIMENT, CREATE, & DESIGN

Designed with performance in mind, and engineered to harness the power of Thunderbolt 2 technology, ThunderBay 4 is an incredibly flexible external drive with the throughput to support multi-stream compressed 4K video and other bandwidth-intensive operations. Highly configurable to perfectly match your performance needs, use each drive independently, or in the RAID configuration of your choice for the optimal balance of performance and data-redundancy. Get the most out of your storage, take the brakes off your workflow, and do more with a ThunderBay 4.

Certified and Tested

Each ThunderBay undergoes OWC's multi-hour drive "burn-in" performance certification procedure prior to shipping. This means your ThunderBay arrives operating properly and ready for demanding use.

The SoftRAID Engine

SoftRAID 5 is the extremely customizable and easy-to-use RAID engine that provides the flexibility to create RAID volumes with virtually any set of drives.

Bare Feats

"... come(s) with a quiet cooling fan and locking front panel for easy access to the drive mounting brackets."
Rob-Art Morgan, Bare Feats

"... an amazing product that can meet the needs of the professional who needs high-performance storage, as well as anyone who is looking for a versatile method of storage and backup."
Tom Nelson, About.com

"With four bays and configurations in 4TB to 32TB capacities, this should give any prosumer the amount of storage they need with ample performance to get the job done."
Tyler Bernath, TweakTown

"The performance is outstanding ... speeds are exceptional ... the ThunderBay itself is an efficient unit that does not get in the way of performance."
Lloyd Chambers, diglloyd

NewerTech NuGuard KX Cases for iPhone, iPad mini, and iPad

Unlike other protective cases, NuGuard KX features state-of-the-art X-Orbing gel technology to absorb and evenly distribute kinetic energy. It's revolutionary technology that's been engineered into a durable, compact case design that measures just over 1/2" thick. Mil-Spec drop tested by Quanta Laboratories to meet the MIL-STD-810G standard for elite protection, NuGuard cases are the best way to protect your iPhone, iPad, and iPad mini from unexpected drops.

KX^S Screen Armor for iPhone and iPad

Three protective layers form an ultra-thin shield, preventing damage from impacts and scratches without affecting touch-sensitivity or clarity.

Full size and KX Case Friendly from **\$9.99**
